

The Outlierman™

WHO IS THE OUTLIERMAN?

The Outlierman is an out of the ordinary, independent, inspired man who expresses himself through style.

He's a Gentleman with an inborn passion for cars, who lives and interprets it with great self-confidence.

He's an explorer, constantly looking for a genuine taste of life and finding it on his own path.

The Outlierman is unique, exclusive and his style says:

I'M CLASSY. I'M AUTHENTIC. I'M FREE.

WHAT MAKES THE OUTLIERMAN *collections* SO UNIQUE?

The Outlierman collections are when a pure passion for cars is translated into high-design.

All our exclusive patterns are inspired by classic cars that have left an indelible mark in history, with reworked shapes and hallmarks that create harmonious and stylish designs able to evoke a legend while remaining flawless elements of style.

The appeal of such great icons is relived also by the colors of the products, which are based on a in-depth study of internal and external colors of classic cars for a genuine, accurate and meaningful style.

The Outlierman Style.

WHERE ARE THE OUTLIERMAN *products* CARRIED OUT?

All The Outlierman products are entirely handmade in Italy by specialized and experienced craftsmen, chosen amongst the most faithful who stay true to the italian manufacturing tradition.

Our workshops are located in some of the most prestigious areas in Italian excellence for accessories. Places such as Naples and Como, where the art of silk and glove-making have been handed down for centuries, as the major representatives of high quality and unmatched handwork.

We choose the finest leather and silks in order to enhance the exclusivity of our creations through the unique beauty of these refined materials.

DRIVING GLOVES

AN ANCIENT TRADITION

High quality materials

Made with natural and high quality deerskins and nappa lambskins, our gloves welcome the signs of aging as a story to tell.

Italian craftsmanship

All the manufacturing phases are carried out by master glove makers from Naples, among the best in the world in the production of leather gloves.

Functional Design

Each element is designed to enhance the driving experience: the perforated leather allows proper perspiration while the length of the wrist ensures the best mobility.

Leather case

A refined leather case made by our Italian craftsmen allows you to take the gloves always with you, ensuring at the same time a constant protection.
